About CEITEC

CEITEC is a scientific centre in the fields of life sciences, advanced materials and technologies whose aim is to establish itself as a recognized centre for basic as well as applied research. CEITEC offers a state-of-the-art infrastructure and great conditions to employ excellent researchers. CEITEC was approved by the European Commission on 6th June 2011. It is a consortium whose partners include the most prominent universities and research institutes in Brno, and it benefits from the support of the Region of South-Moravia and the City of Brno. The following participate in the setting up of the centre of excellence: Masaryk University, Brno University of Technology, Mendel University in Brno, University of Veterinary and Pharmaceutical Sciences in Brno, Veterinary Research Institute and Institute of Physics of Materials of the Academy of Sciences of the Czech Republic.

Multi-field CEITEC is in fact the first type of a scientific centre in the Czech Republic to integrate research and development in the fields of life sciences, advanced materials and technologies in such a large range. The research is divided into **61 groups** and **7 programmes**:

- Advanced Nanotechnologies and Microtechnologies
- Advanced Materials
- Structural Biology
- Genomics and Proteomics of Plant Systems
- Molecular Medicine
- Brain and Mind Research
- Molecular Veterinary Medicine
