

Welcome to Vienna!

Become Part of Central Europe's Startup Hub

"It's a good place to find the right team, to make something happen"

Katharina Klausberger, Shpock

*„Here in Vienna you get support by the government,
by organizations and institutions...that's amazing!"*

Frederik Debong, MySugr

Vienna loves its startups, and startups love their Vienna. Vienna is a strongly connected, vibrant hub full of beans, ideas and creativity. Investment activity in the city is stronger than ever and there are networking opportunities to attend every week.

Also this year, the City of Vienna will award the **Vienna Startup Welcome Package to 5 promising startups** – a unique opportunity to join the city's community for **3 months** and **receive extensive support**.

The five final awardees will not only enjoy **free travel, housing, office space** and **coaching**, but also get an **exclusive introduction** to Vienna's startup ecosystem and its key players. Pioneers, one of Europe's largest startup communities made in Vienna, will help with making the first introductions for our guests. Meet other startups, investors and potential partners to jump-start your business at the heart of Europe.

Furthermore the startups will be supported in identifying opportunities for their technology, product or service on the wider European market through individual one-on-one coaching.

The winners will be awarded at [Pioneers Festival 2015](#), taking place on May 28th and 29th in Vienna.

The Vienna Startup Welcome Package is targeted at early stage startups based outside Austria. The 3 months stay in Vienna is scheduled to take place between September and December 2015.

This program was designed and is funded by the [Vienna Business Agency](#) and is brought to you in cooperation with [Pioneers](#).

For further questions, please contact Julie Kainz via julie.kainz@pioneers.io.
